Subject: Passed the test

Thank you for Guaranteed to Pass! A great product that keeps its promises. I wanted to invest in a new car when we received the emission test request a couple of month ago, but my wife loves her old car and insisted that we try Guaranteed to Pass which she found at Canadian Tire. Thanks to you (and my wife) we are looking forward to drive our old buddy way beyond 200,000 km and spend a vacation in the Caribbean instead of buying a new car!

Thank you
Muneesh S.

WILL YOUR CAR PASS THE TEST?

I did pass the test, and to the surprise of the technician, with flying colours. He was surprised to see a vehicle of this vintage do so well. I have decided to buy another bottle to add to my inboard ski boat. It runs a 1984 V8 Ford engine, and despite running relatively smoothly, it seems like it could use a boost. I trust I will be just as happy with it in the boat.

It is refreshing to use a product that does what it claims.
Regards,
Paul D., Vancouver BC

Dear CRC Team,

You have saved me a lot of money with Guaranteed to Pass. I didn't think that my old 1989 Jetta would pass the test but gave your product a try after my work colleague told me about it.

The mechanic was stunned by the test results. I have already recommended Guaranteed to Pass to many of my friends and have earned their thankfulness that I want to pass on to you.

Thank you for a great product.

Sincerely,
Danielle E. - Burlington, ON
