

I. Product Description

Flying and Crawling Insect Killer is a broad spectrum insecticide which is highly effective against ants, carpenter ants, cockroaches, fleas, moths, silverfish, spiders, flies, mosquitoes, gnats and much more. **Flying and Crawling Insect Killer** can be used indoors or outdoors for rapid knockdown of insects or can be used in crack and crevice applications.

II. Applications

Recommended for any non-food areas of warehouses, food processing plants, hotels, theaters, schools, offices and most industrial and institutional areas.

III. Features & Benefits

- **Broad Spectrum Insecticide.**
- **Indoor and Outdoor use.** Protects up to 4 weeks.
- **Convenient Aerosol Package.** For easy and controlled application of product.
- **M.S.D.[L.]™ Material Safety Data Label** provides instant access to current safety information should an accident or OSHA inspection occur. Helps comply with **OSHA Hazard Communications Standard 29 CFR 1910.1200.**

IV. Physical Properties without propellant

Flash Point	105°F	Freezing Point	Not applicable
Odor	Mild Petroleum	Boiling Point	180°F
Appearance	White cloudy Emulsion	Solubility	Miscible
Vapor Density	>air	% Volatile	90.3
Vapor Pressure	46 Psig	Specific Gravity	0.96
Sara Title III, Sect. 313 Chemicals	Yes	Propellant	Hydrocarbon
VOC Content (Fed)	30.0%		
Prop 65	No		

V. Specifications and Approvals

- Not applicable.

VI. Performance Characteristics

- Not applicable.

VII. Directions

- SHAKE WELL BEFORE USING
- Point nozzle away from face and spray from a distance of 12 to 15 inches.

INDOORS

- Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray up to 10 seconds for average room.
- Keep nozzle in constant motion when spraying.
- Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry.
- Sweep up and discard fallen insects.
- Repeat application as necessary.

OUTDOORS

- Point spray nozzle away from face. Hold can on a slight downward angle and directly spray toward infested area.
- Allow a few minutes for product to take effect.
- For best results, spray when air is calm. If there is a breeze, spray with wind if breeze is blowing.
- For control of building infestation, spray at the foundation of building where insects are active.
- Repeat application as necessary.

VIII. Disposal

Disposal requirements vary by state and local jurisdiction. All used and unused product should be disposed of in conformance with local, state and federal regulations.

IX. Special Use Warnings

General

Do not apply over cuts, wounds, or irritated skin. Use of this product may cause skin reactions in rare cases. Avoid contact with skin, eyes and clothing. Avoid vapor or spray mist. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before re-use. Remove pets and birds and cover fish aquaria before spraying or surface applications. Vacate room after treatment and ventilate before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry. For more information, review the Material Safety Data Sheet for this product.
