

I. Product Description

Precision Cleaner & Lubricant is a high purity precision cleaner that replaces CFCs and chlorinated solvent-based cleaners. **Precision Cleaner & Lubricant** cleans surfaces and leaves a fine, microscopic corrosion-proof barrier. **Precision Cleaner & Lubricant** is safe to use on all plastics and is ideal for outdoor electronics susceptible to moisture and salt air.

II. Applications

Recommended for effective removal of grease, oil and dirt from contacts, circuit breakers, switches, relays, meters, light bulb sockets, control systems and coils where lubricating and corrosion protection is required.

III. Features & Benefits

- **Inhibits Corrosion.** Protects electronic and electrical components against corrosion with a non-hardening film.
- **Plastic Safe.** Allows one product to be used in all applications without risk of costly damage to sensitive modern plastics.
- **Increases equipment life** and reduces maintenance time.
- **No Class I or Class II Ozone Depleting Chemicals.** Offers effective performance while complying with the EPA regulations on the use of ozone depleting chemicals.
- **Removes grease, oil, dirt, dust and other contaminants.**

IV. Physical Properties without propellant

Flash Point	<20°F
Odor	Solvent Odor
Appearance	Clear, water-white liquid
Vapor Density	>1 (air = 1)
VOC Content (Fed)	607 g/L
Sara Title III, Sect 313 Chemicals	Yes
Prop 65	Yes

Boiling Point	141°F
Solubility	Not soluble in H ₂ O
% Volatile	97%
Specific Gravity	0.6284
Propellant	Hydrocarbon

V. Specifications and Approvals

- N/A

VI. Performance Characteristic

Belcore Test (Plastic Compatibility)	Yes
ASTM D-877 (Dielectric Strength)	350 volts
ASTM D-1130 (KB Value)	27

VII. Directions

- Spray light even film on areas to be cleaned and protected.
- Use an extension tube for hard to reach areas.
- Allow to dry thoroughly and vent before reactivating.
- Do not apply while equipment is energized.

VIII. Package Description

Part Number	Container Size
04040	16 oz Aerosol

IX. Disposal

Disposal requirements vary by state and local jurisdiction. All used and unused product should be disposed of in conformance with local, state and federal regulations.

IX. Special Use Warnings

Aerosol Cans

Do not puncture, incinerate or store above 120° F. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

General

Use only in well ventilated area. Ventilation may be improved by opening a window or door or providing mechanical assistance. Avoid continuous breathing of vapor and spray mist. Avoid contact with skin and eyes. If ventilation is not adequate, respiratory protection should be worn. For more information regarding short term and long term exposure, review this product's Material Safety Data Sheet.
