### The latest in penetrating technology!

CRC FREEZE-OFF Super Penetrant is a unique formula that uses Freeze-Shock Action to FREEZE, PENETRATE and LOOSEN rusted and corroded mechanisms. Upon contact, FREEZE-OFF immediately drops the temperature of the area in direct contact with the spray. The freezing effect cracks the rusted surface, allowing FREEZE-OFF to reach deeper and work more effectively than other penetrants to loosen corroded nuts, bolts, hinges, locks and more!
