

Concentrated Cetane Boost

CRC Concentrated Cetane Boost raises the cetane number of diesel fuel by up to 7 points for faster acceleration, increased MPG & MAX Power!

High-performance diesel engines operate best on fuel with a cetane number of 50 or higher, but most pumps only offer a cetane rating of about 45, with some as low as 35 numbers.

Instant results! This high-performance, alcohol-free diesel additive provides more complete combustion for better performance and drivability.

- Reduces ignition lag-time allowing fuel to ignite earlier in the cycle for more complete combustion
- Contains 100% active additive; no solvents or alcohol
- Reduces the need for downshifting during high-load conditions

- ▲ Boosts cetane (fuel ignitability) up to 7 numbers
- ▲ Increases power for towing
- ▲ Maximizes fuel economy
- ▲ Reduces engine wear
- ▲ Reduces white smoke, emissions and objectionable odors
- ▲ Provides superior cold-temperature starting
- ▲ Reduces misfiring during warm-up and in cold weather

Higher cetane means more efficient combustion!

Most diesel fuel offered in North America has a cetane rating of 40-45, but high-performance diesel engines run best with a cetane number of 50 or higher. If the cetane number in your fuel is too low you could see excess white smoke, reduced power, increased oil sludge, decreased fuel economy and increased overall engine wear. Use **CRC Concentrated Cetane Boost** with every fill up for more complete combustion, fewer emissions, increased performance, faster acceleration and increased MPG.

Use in all diesel engines. Compatible with biodiesel and all types of exhaust emission systems such as diesel particulate filters (DPFs.)

This diesel fuel additive complies with the federal ultra-low sulfur content requirements for use in diesel motor vehicles and non-road engines.

Part No.	Package Type	Net Wt.	Units/Case
05916	Bottle	16 fl. oz.	12
Unit Dimensions		Case Dimensions	
7.88"H x 2.13"W x 3.5"D		8.5"H x 7.4"W x 12.6"D	

For best results with up to a 7 point cetane increase, add 1 oz. of CRC Cetane Boost per 5 gallons of diesel fuel (one bottle to 80 gallons).

CRC Industries is a worldwide leader in the production of specialty chemicals for maintenance and repair professionals and do-it-yourselfers, serving the automotive, heavy trucking, marine, hardware, industrial and aviation markets. CRC is ISO 9001:2008 certified and adheres to the strictest guidelines for quality in all facets of research, development and production.
