

United States
Department of
Agriculture

Food Safety
and Inspection
Service

Mr. Steven S. Katz
C R C Industries, Inc.
888 Louis Drive
Warminster, PA 18974

Dear Mr. Katz:

This is in reply to your request for compound authorization on June 18, 1991 for your product CRC Cuttin

This product is chemically acceptable as a preservative in official establishments operating under the HACCP inspection program. The compound must be used to prevent or indirect contamination of edible products.

The final granting of authorization for the use of this compound is the responsibility of the inspector in charge. Technical assistance will be provided by the Product Support Unit.

Acceptance of this compound will be indicated on the label "Substances and Nonfood Compounds." However, the use of this compound will not be indicated. Copies of this letter should be provided to inspectors as proof of the acceptable use(s).

Acceptance of compounds by this Department does not constitute endorsement of the compounds or of any claim made for them.

If any change is made in the labeling information, you must notify the Service.
