CO CONTACT CLEANER®
精密電器清潔劑 (乾性)

APPLICATIONS: All types of electronic & electrical equipments, like micro relay contacts, telecommunication equipment, PC cards, etc.

CHARACTERISTICS: • Quick drying, inert high purity formula evaporates rapidly • Leaves no residue to increase resistance • Excellent precision cleaning solvent that instantly removes light contaminants, dust, lint, atmospheric oils, moisture and dirt • Helps prevent contact failure or malfunction by dissolving and rinsing away contaminants • Plastic safe formula - harmless to plastics and paper tapes • Ozone friendly - contains no CFC's.

DIRECTIONS: 1. **DE-ACTIVATE EQUIPMENT BEFORE USE.** 2. Spray small amounts on area to be cleaned. Swabs or lint-free cloths may also be used to clean stubborn soils. 3. Use an abrasive on surfaces with heavy carbon deposits or corrosion - remove residue with intermittent spray. 4. Allow to dry thoroughly and vent before re-activating systems. 5. Periodic planned maintenance prolongs life expectancy of components and helps eliminate deposits that cause leakage. Use resistance measurements to determine frequency of application.

CAUTIONS: **EXTREMELY FLAMMABLE** Use with adequate ventilation. Get fresh air if required. If swallowed, do not induce vomiting, call physician immediately. Use only as directed. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Keep out of reach of children. Do not puncture or incinerate even when empty.
