**DIRECTIONS:** Read entire label before using this product. 1. For personal safety, do not apply while equipment is energized. 2. May be harmful to some plastics. Do not use on polycarbonate plastics, such as Lexan®, if in doubt call the manufacturer of the equipment. Do not use on sensitive electronic equipment such as DVD's, computers, fax machines, copiers, printers, shredders, etc. 3. Spray until clean and allow to run off. Use extension tube for pinpoint cleaning. 4. Use an abrasive on surfaces with heavy carbon deposits or corrosion - remove residue with intermittent spray before reactivating system. 5. Product may collect and pool in unseen areas. Use a combustible gas detector to be certain there are no flammable vapors remaining before reactivation. 6. Periodic planned maintenance prolongs life expectancy of components and helps eliminate deposits that cause leakage. Use resistance measurements to determine frequency of application.

**INSTRUCCIONES:** Lea la etiqueta completa antes de usar este producto. 1. Para seguridad personal, no aplicar en equipos con corriente eléctrica. 2. Puede ser dañino para algunos plásticos. No usar en plásticos de policarbonato, tales como Lexan®. Si tiene dudas, llame al fabricante del equipo. No utilizar en equipos electrónicos sensibles, tales como DVDs, computadoras, máquinas de fax, copiadoras, impresoras, trituradoras de papel, etc. 3. Pulverice hasta que el artículo esté limpio y deje secar. Utilice un tubo prolongador para limpieza detallada. 4. Utilice un abrasivo en superficies con depósitos grandes de carbono o corrosión - remueva los residuos con pulverización intermitente antes de reactivar el sistema. 5. El producto puede juntarse y acumularse en áreas que no estén a la vista. Use un detector de gas combustible para asegurar que no queden vapores inflamables antes de la reactivación. 6. El mantenimiento programado periódico prolonga la vida útil de los componentes y ayuda a eliminar depósitos que puedan causar pérdidas. Utilice mediciones de resistencia para determinar la frecuencia de la aplicación.
