

Industrial

Short Term Mold Saver

Corrosion Inhibiting Compound

Protects Up To 9 Months Indoors
Excellent Overnight Protection
Self-Cleaning

No. 03318

Net Wt. 11 oz. (312 g)

DANGER: FLAMMABLE; HARMFUL OR FATAL IF SWALLOWED; CONTENTS UNDER PRESSURE. Read warnings on back panel.

01A
Made in U.S.A.
CRC#4559

ELECTRICAL SHOCK HAZARD: This can will conduct electricity. Keep away from all live electrical sources including Battery Terminals, Solenoids, Electrical Panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

1. Spray in light, even coats to lubricate and protect metal surfaces.
2. To displace moisture, spray wet surfaces until run-off is clear and moisture-free.
3. Do not use on energized equipment.

Directions: Read entire label before using this product.

To view M.S.D.S.: Tear (DO NOT CUT) label by running a fingernail down between perforations, removing this tab. Fold back label. Do not remove until can is empty.

KEEP AWAY FROM CHILDREN

WARNING: Contains Petroleum Distillate 64742-47-8, Carbon Dioxide 124-38-9 and Oxygenated petroleum fraction. Do not puncture, incinerate or store above 120° F. Exposure to high temperature may cause can to burst. Do not place in direct sunlight or near other heat source. Product is flammable and should be kept from flames and other ignition sources. Use only in a well ventilated area. Avoid continuous breathing of vapor and spray mist. Avoid contact with skin and eyes. Vapors are heavier than air and will collect in low areas. Overexposure to vapor may cause irritation to the eyes and respiratory tract, headaches, dizziness, anesthesia, drowsiness, unconsciousness, and other central nervous system effects. Deberate misuse by concentrating and inhaling the contents can be harmful or fatal. Vapors are heavier than air and will collect in low areas. **FIRST AID:** In case of eye or skin contact, flush with water for 15 minutes. If swallowed, may be harmful or fatal. DO NOT induce or vomit. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately. **DISPOSAL:** All used and unused product should be disposed of in conformance with local, state and federal regulations, for additional information, consult the Material Safety Data Sheet for this product.

- SHORT TERM CORROSION INHIBITOR protects and lubricates all metal molds with an ultra thin, dry film.
- EXCELLENT FOR OVERNIGHT and weekend protection.
- DISPLACES MOISTURE and resists corrosive contaminants.
- DRY FILM is highly resistant to oil, dust and dirt build-up.
- PROTECTS up to 9 months under normal indoor storage conditions.
- SELF-CLEANING in start-up. Will not penetrate into ejector pin areas and cause part rejections.
- MEETS MIL-C-16173D Grade 3.
- EXCELLENT FOR USE on all metal molds and dies including plastic, rubber, drawing, stamping, die-casting, fine blanking, stripper plates, jigs and fixtures.
- MEETS 1998 (H2) USDA guidelines for use in meat and poultry plants.
- MATERIAL SAFETY DATA SHEET printed on back of label for your convenience and safety. (The CRC MSDL™ is a proprietary label removal system patented under U.S. Patent No. 5,056,827).
