CRC TrueTap NTL Cutting Fluid

A biodegradable natural cutting fluid that is very effective in drilling, tapping, milling, and turning on both ferrous and non-ferrous material. It is pleasant to work with since it does not irritate the eyes, skin, or respiratory tract.

Does not contain mineral oil, nitrates, chlorine, sulfur, phenols, molybdenum compounds or graphite. It contains no solvent and is considered a low VOC lubricant.

WARNING: Contains Triglycerides (Proprietary).

Do not use near fire or open flame. Use only in a well ventilated area. Avoid breathing mist, may cause irritation of the respiratory tract. Avoid contact with eyes and skin.

FIRST AID: In case of eye or skin contact flush with water for 15 minutes. If swallowed, may be harmful or fatal. Do not induce vomiting. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately. For additional information, consult the Material Safety Data Sheet for this product.

DIRECTIONS: Read entire label before using this product. Apply to tool before coming in contact with the work, using only enough to coat the tool. After cutting, use a CRC Cleaner/Degreaser and a CRC corrosion inhibitor to clean and protect parts.

All used and unused product should be disposed of in accordance with local, state and federal regulations.
