# **CRC** TrueTap<sup>®</sup> Aqua Cutting Fluid

A water-soluble cutting fluid. It provides excellent cooling and lubrication and is a suitable replacement for solvent or oil-based cutting fluids. This product works well on machine tools containing water-soluble coolants. It will emulsify with the coolant without causing contamination.

This fluid is ideal for tapping and drilling ferrous and non-ferrous materials. Leaves a soft residue, which is easily rinsed away.

---

**DIRECTIONS:** *Read entire label before using this product.*

Apply to tool before coming in contact with the work, using only enough to coat the tool. After cutting, use a CRC Cleaner/Degreaser and a CRC corrosion inhibitor to clean and protect parts.

---

**Precautionary Statements:** Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. Do not store container below 32 °F/0 °C. Store away from incompatible materials. Dispose of contents/container in accordance with local/regional/national regulations.

**First Aid:** Wash hands after handling. In case of eye or skin contact, flush with water for 15 minutes. If swallowed, do not induce vomiting without medical advice. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately.

---

Contains water 7732-18-5, polyether phosphate (proprietary), and triethanolamine 102-71-6.

Deliberate misuse by concentrating and inhaling the contents is illegal and can be harmful or fatal. Inhalation abuse can cause death. For additional information, consult SDS for this product.
