

# M/T BOOST™

## Manual Transmission Treatment

M/T BOOST is the latest in lubricant technology specifically developed to enhance and protect today's high performance manual transmissions. M/T BOOST's extreme pressure additives provide maximum lubrication for smooth, quick shifting action. M/T BOOST also coats gears and bearings with an armor-like coating to ensure maximum protection and extend service life.

Ideal for performance cars, trucks, classics and tow vehicles.

- Enables faster shifting • Reduces temperatures
- Minimizes wear on load surfaces • Increases load capacity
- Prevents corrosion, foaming, galling and scuffing
- Compatible with all GL-4, GL-5 & synthetic gear oils

**DIRECTIONS:** Read entire label before using this product.

**NOTE:** It may be necessary to drain 4 fluid ounces of gear oil before adding M/T BOOST. 1. Locate and remove the pipe plug on the side of the manual transmission. 2. Add entire content of this tube to transmission. It may be necessary to put a piece of tubing on the end of the tube tip if fill hole is not accessible. 3. Ensure transmission is full, replace pipe plug. One tube of M/T Boost treats up to 96 Fluid ounces of gear oil.

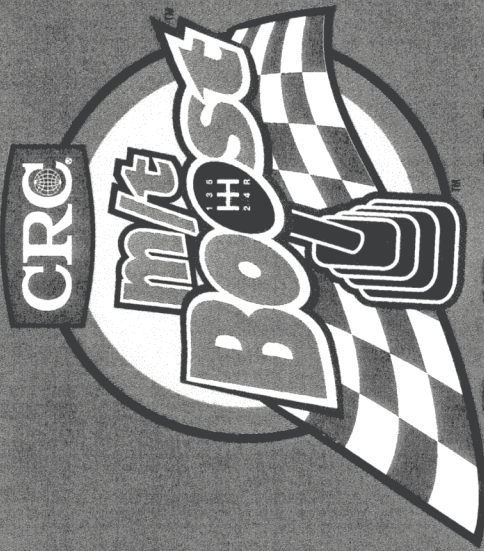

**WARNING:** Contains Petroleum Oils 64742-62-7  
N.J.T.S.R.N. 8010362-5009P, 5050P, 5051P and 5057P.

**FIRST AID:** In case of eye or skin contact, flush with large amount of water for at least 15 minutes. If swallowed, DO NOT induce vomiting. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately. **KEEP AWAY FROM CHILDREN.**

**DISPOSAL:** All used and unused product should be disposed of in accordance with local, state and federal regulations. **DO NOT** dump in sewers, floor drains, on the ground or into any body of water.
