

Battery Cleaner with Acid Indicator

For instructions in Spanish, go to crcindustries.com. Para obtener las instrucciones en Español, visite crcindustries.com.

CRC Battery Cleaner with Acid Indicator locates harmful acid and cleans up battery cases, connectors, terminals, hold downs, and carriers. Neutralizes acid spills. Helps prevent corrosion.

- Color-changing foam instantly identifies acid leaks
- Reduces voltage leakage due to contaminants
- Assures maximum battery current flow
- Helps eliminate energy loss with regular maintenance
- Promotes longer battery life

DIRECTIONS: *Read entire label before using this product.*

1. Shake can well before using. 2. Spray liberally over battery surface and all corroded areas. Do not spray into battery cells. If any acid is present, foam will turn to pink. 3. Allow **CRC® Battery Cleaner with Acid Indicator** to soak for a few minutes. 4. Use wire brush to remove heavy deposits on terminal or protectors. 5. Flush with water. 6. Reapply to ensure that all acid has been removed and rinse again. 7. Wipe dry with cloth or paper towel. For extended protection, spray clean terminals with **CRC® Battery Terminal Protector** item #05646.

WARNING: Contains water 7732-18-5, liquefied petroleum gas 68476-86-8 and 2-butoxyethanol 111-76-2. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F/49°C. Exposure to high temperature may cause can to burst. Do not place in direct sunlight or near any heat source. Avoid contact with skin and eyes. Deliberate misuse by concentrating and inhaling the contents is illegal and can be harmful or fatal. Inhalation abuse can cause death. Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
