Hi-Vis Gear Oil

CRC HI-VIS GEAR OIL is a blend of highly refined paraffinic base oils, anti-wear, extreme pressure, anti-rust, anti-oxidation and anti-foam additives.

This product is recommended for use in outboard lower units, stern drives, inboard-outboard transmissions, or wherever hypoid 90 gear oil is recommended.

CRC HI-VIS GEAR OIL provides excellent wear protection, especially under severe high pressure conditions; also prevents rust and corrosion. Meets original manufacturer's performance requirements for Johnson & Evinrude (from model year 1973 to date) and OMC Sterndrive (from model year 1978 to date).

DIRECTIONS: Best results obtained when used with Sta-Lube Gear Oil Pump (Product #SL4344). Remove both plugs in lower housing and allow water to drain off. Apply pump nozzle directly to lower hole. Pump until lubricant flows from upper hole. Replace top plug first.
