Disc Brake Quiet

NAPA/CRC DISC BRAKE QUIET is specially formulated to dampen the vibrations that cause disc brake noise. It forms a water-resistant, high temperature film that will absorb noise and quiet disc braking.

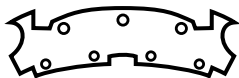

DIRECTIONS: *Read entire label before using this product.*

For best results, all steel backing plates should be clean before applying product – not for use with shimmed pads.

1. Apply liberally to the steel back of each outboard pad. Spread evenly over entire surface. Product should not be applied to brake lining.
2. Apply one applicator-width strip to the steel back of each inboard pad (See illustration).
3. Allow to set for 10 minutes. May install while still tacky.

OUTBOARD

INBOARD

WARNING: Contains Acrylic polymers, Water 7732-18-5, Ethylene glycol 107-21-1, and pigments 2814-77-9 / 3468-63-1. Do not swallow. Avoid contact with skin and eyes. This product contains chemicals known to the State of California to cause cancer, birth defects and other reproductive harm.

FIRST AID: If swallowed, contact a poison control center. In case of eye or skin contact, flush with water for 15 minutes.

For additional information, consult MSDS for this product.

DISPOSAL: All used and unused product should be disposed of in conformance with local, state and federal regulations.
