NAPA/CRC TRANS-KLEENTM

Smooths out transmissions, increases shifting performance. Rejuvenates older automatic transmissions to "like new" car performance and feel. Minimizes formation of gum, sludge, acid and corrosion. Eliminates hesitating, rough shifting, creepage, and between-speeds lurching. Prolongs life of bands, servos, and clutch discs. For transmission leaks, use NAPA/CRC Leak-Stop.

DIRECTIONS: Read entire label before use. 1. For preventive maintenance, add one container to the automatic transmission fluid. 2. For corrective maintenance, add one container and operate vehicle normally. Drain after 3,000 miles. Refill with new transmission fluid and add one container of NAPA/CRC Trans-Kleen.
