

Concentrated Radiator Anti-Rust

For use in all cooling systems, including aluminum. Protects metal in the system against rust and corrosion. Eliminates water pump squeal, lubricates water pump seals and all moving parts. Will not harm hoses or gaskets. Works with any standard anti-freeze. For cooling systems up to 22 quarts.

DIRECTIONS: Read entire label before using this product.

1. For best results, drain and flush system with CARQUEST 10-minute Radiator Flush.
2. Insure that system is filled with recommended level of coolant. With engine off and cool, add entire contents of Anti-Rust to radiator. Use entire contents at once.
3. Run engine to distribute Anti-Rust thoroughly.

WARNING: Contains Water 7732-18-5, Petroleum Distillate 64742-53-6, Petroleum Sulfonate 64741-88-4. Avoid contact with eyes. In case of contact, wash thoroughly for 15 minutes. If swallowed, DO NOT induce vomiting. For severe overexposure, call a physician immediately. For additional information, consult the Material Safety Data Sheet for this product.
