BATTERY CLEANER

- Neutralizes surface acids, salts and corrosion.
- Cleans battery surface, connectors, terminals and carriers.
- Reduces voltage leakage due to contaminants.
- Assures maximum battery current flow.

INSTRUCTIONS

Read entire label before using this product.

1. Shake can lightly.
2. Spray liberally over battery surfaces and all areas where battery corrosion deposits exist.
3. Avoid spraying into battery cells.
4. Wait a few minutes, flush with water and wipe dry with cloth or paper towel.
5. Use a wire brush for heavy deposits on terminals and connectors.
6. Repeat application if needed.

*For extended protection,
spray clean terminals with
Deka Battery Terminal Protection Spray.*

00321

Battery Cleaner Spray

- Penetrates, loosens and neutralizes all acid corrosion deposits

NET WT. - 15 oz. (425g)

WARNING: CONTENTS UNDER PRESSURE.
Read warnings on back panel.
