

Heartland® Limited Slip and Differential Additive

This product is a friction modifier for use in posi-traction and limited slip differentials. Heartland uses the correct amount of lubrication modifiers to provide the proper amount of lock-up to the differential. Use of this product also eliminates and prevents chatter, jerking and excessive wheel spin.

Directions: Read completely before application.

1. Drain differential while oil is warm. 2. Add entire contents of this tube to differential. For hard to reach spots, add section of tubing to lip of container. 3. Refill with appropriate gear oil. (See manufacturer's recommendations.) 4. Do not over treat.

This product is compatible with all GL-5 petroleum and synthetic gear oils. Not for use with Quadra-Trac or Quadra-Drive.

WARNING: Contains Mineral Oil 64742-54-7, Long Chain Alcohol 800967-55209, Alkyl Phosphate 800967-5199P, Alkyl Phosphate Ester, Amine Salt 800967-5546P. This product contains chemicals known to the state of California to cause cancer, birth defects and other reproductive harm.

FIRST AID: In case of eye or skin contact, flush with large amounts of water for at least 15 minutes. If swallowed, DO NOT induce vomiting. If too much is breathed, remove to fresh air. For severe over-exposure, call a physician immediately.

KEEP AWAY FROM CHILDREN.

DISPOSAL: All used and unused product should be disposed of in accordance with all governing regulations. DO NOT dump in sewers, floor drains, any ground or body of water.
