

Nail E-Z Horseshoe Lubricant

Developed for Professional Farriers by a Farrier to make **life a little easier**, Nail E-Z adds the proper amount of dry film lubricant to make every nail drive more accurately with less force. With less friction on the shaft of the nail, there is less chance of cracking for that **thin walled** horse and **less concussion** on the hoof. Coating the nail decreases the amount of drag on the nail as it goes through the hoof wall with more ease which means fewer hammer blows. Based on the shoeing average of a full time Farrier, just reducing your hammer blows per nail by three would save you 146,250 hits per year. That means less stress and impact to your shoulder, elbow and wrist joints. A perfect nail line creates a stronger fit resulting in **fewer thrown shoes**.

Directions: Read entire label before using this product. 1. Can be applied to individual nails for single horse use or to full or opened box of any type of nail. 2. Hold can 8" to 10" away from surface to be sprayed. 3. Spray liberal amount on nails to be lubricated and shake box for even distribution. 4. Wait 5 minutes then reapply as needed to keep nails driving smoothly. 5. Reapply when box is 1/2 full. 6. Approximate drying time is 5 minutes. Can be used while wet. 7. Dries fast and leaves no messy residue. Contains acetone, avoid contact with painted or plastic surfaces while wet.

WARNING: Contains Acetone 67-64-1, Heptane 142-82-5, Dimethylpolysiloxane 63148-62-9 and Hydrocarbon Propellant 68476-86-8. Do not puncture or incinerate or store can above 120°F. Exposure to high temperature may cause can to burst. Do not place in direct sunlight or near any heat source. Product is extremely flammable and should be kept from all flames and other ignition sources. This product contains chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. If you experience symptoms listed on this label, increase ventilation or leave the area. Avoid continuous breathing of vapor and spray mist. Avoid contact with skin and eyes. Overexposure to vapor may cause irritation to eyes and respiratory tract, headaches, dizziness, drowsiness, anesthesia and unconsciousness. Deliberate misuse by concentrating and inhaling the contents can be harmful or fatal. Vapors are heavier than air and can collect in low areas. **FIRST AID:** In case of eye or skin contact flush with water for 15 minutes. If swallowed, may be harmful or fatal. Do not induce vomiting, if too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately. For additional information consult the Material Safety Data Sheet for this product. **KEEP AWAY FROM CHILDREN.**

Horseshoe Nail Lubricant

- **Lubricates**
