CRC TrueTap[®] HD Cutting Fluid

An extreme duty cutting fluid. It is a thick fluid that sticks to the cutting tool throughout the operation. Considered environmentally friendly.

This fluid is ideal for tapping and drilling stainless steel, carbon steel, inconel, monel, hastelloy, titanium, aluminum and other alloys and exotics.

- Increases productivity
- Extends tool life
- Provides excellent finish and accurate threads
- Will not evaporate

DIRECTIONS: *Read entire label before using this product.*

Apply to tool before coming in contact with the work, using only enough to coat the tool. After cutting, use a CRC cleaner/degreaser and a CRC corrosion inhibitor to clean and protect parts.

Precautionary Statements: Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. Do not store container above 100 °F/38 °C. Store away from incompatible materials. Dispose of contents/container in accordance with local/regional/national regulations.

First Aid: Wash hands after handling. In case of eye or skin contact, flush with water for 15 minutes. If swallowed, do not induce vomiting without medical advice. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately.

Contains chlorinated paraffins 63449-39-8. Deliberate misuse by concentrating and inhaling the contents is illegal and can be harmful or fatal. Inhalation abuse can cause death. For additional information, consult SDS for this product.
