COLD FLOW™ Anti-Gel with Lubricity

Para obtener información adicional en Español, visite www.crcindustries.com.

Cold Flow Anti-Gel with Lubricity is formulated for cold weather use in all diesel equipment. Assures superior performance in winter without harmful alcohol. Lowers fuel pour point by as much as 40°F. Retards gelling or waxing during cold weather. Disperses water. Cleans injectors. OK for biodiesel.

This product complies with the federal ultra-low sulfur content requirements for use in all diesel motor vehicles and non-road engines. Compatible with all diesel fuels.

DIRECTIONS: Read entire label before using this product.

1. Before outside temperature drops to 50°F (10°C), add one container for each 125 gallons of diesel or biodiesel fuel. **2.** For passenger cars, add six ounces per 25 gallons. **3.** Mix thoroughly. Change fuel filters.

Contains xylene 1330-20-7, petroleum naphtha 64742-94-5, ethylbenzene 100-41-4, 1,2,4-trimethylbenzene 95-63-6, and toluene 108-88-3. **DANGER:** Product is flammable and should be kept from heat, open flames, and other ignition sources. Do not store container above 100 °F/ 38 °C. Avoid breathing of vapor. Avoid contact with skin and eyes. Exposure can cause irritation to eyes, skin, and upper respiratory tract and headache or dizziness. Product may pose an aspiration hazard if swallowed. Use with adequate ventilation. Deliberate misuse by concentrating and inhaling the contents is illegal and can be harmful or fatal. **FIRST AID:** In case of eye or skin contact, flush with water for 15 minutes. If too much is breathed, remove to fresh air. If swallowed, immediately call your physician or the poison control center at 1-800-222-1222. **DISPOSAL:** All used and unused product should be disposed of in conformance with regulations. Do not dump in sewers, floor drains, on the ground, or into any body of water. **KEEP AWAY FROM CHILDREN**
