CRC Cutting Oil

- Helps produce clean, sharp threads time after time
- Compatible with all manual and motor driven threading equipment
- Extreme pressure film extends cutting tool life
- Low odor formulation
- Contains no chlorinated solvents
- Excellent cooling and anti-weld properties
- Thread cutting compound for steel, aluminum and copper metals
- NSF P1 Registered

APPLICATIONS:

Can be used for drilling, tapping, threading, sawing, reaming, and milling of ferrous and non-ferrous metals including copper and aluminum.

DIRECTIONS: *Read entire label before using this product.*

1. Apply liberal coating to area to be threaded.
2. On motor driven equipment, re-apply frequently or fill sump to required minimum level.
3. With manual equipment, re-apply when increased force is required.
4. Clean threads and protect against corrosion with CRC corrosion inhibitors.

Precautionary Statements

Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. Do not store container above 100 °F/38 °C. Store away from incompatible materials. Dispose of contents/container in accordance with local/regional/national regulations.

First Aid

Wash hands after handling.

Contains petroleum distillates 64742-52-5, 64742-54-7, 64742-56-9 and paraffin oils 64742-70-7, 64742-71-8.

Deliberate misuse by concentrating and inhaling the contents is illegal and can be harmful or fatal. Inhalation abuse can cause death. For additional information, consult SDS for this product.
