Sta-Lube® SYN-GO® is a specially-formulated full synthetic gear oil used in many severe duty OEM applications. SYN-GO OEM Grade provides long-life durability, superior thermal protection and extended drain intervals. Additionally, SYN-GO OEM Grade improves fuel economy, prevents corrosion and protects moving components from heat related stresses. Use SYN-GO OEM Grade in differentials, manual transmissions and transfer cases, requiring the specifications listed below.

- Use as a fill or top-off in auto, truck, SUV and heavy-duty vehicle differentials and manual transmissions. Fill to vehicle manufacturer recommendations.
- Provides superior lubrication protection from -40°F to 350°F.
- Improves fuel efficiency, prevents corrosion and protects moving components in extreme conditions such as towing and racing.
- Contains high-tech extreme pressure additives that extend drain intervals by as much as two times that of conventional gear oils
- SYN-GO OEM Grade meets or exceeds the following specifications: AGMA 6, GL-5, MT-1, PG-2, ISO 220, MACK GO-J, MIL-PRF-2105-E, Navistar TMS 6816, L-37 High Temp & EP Protection, SAE J2360, SAE J306, Chrysler MS-8985, GM 12346190 and Ford M2C192A.
- Fully compatible with synthetic and conventional GL-5 gear oils.
- NOTE: Many limited slip differentials require the use of a friction modifier; use Trans-X® Posi-Trac® or Sta-Lube® Equa-Torque® for domestic vehicle applications. Consult manufacturers' requirements and specifications for gear oil and friction modifier.
- Reduces friction, drag and operating temperatures.

Sta-Lube® is a wholly-owned subsidiary of CRC Industries, Inc.
