

Food Grade Anti-Seize & Lubricating Compound

Resists Acid, Chemical Corrosion & Oxidation
Protects to 1800°F (982°C)
Conforms to MIL-PRF-907E

Nonfood Compounds Program
Listed: H1 Reg.# 131549

No. SL35905
Item# 1007942

8 oz (226 g)

CRC® Food Grade Anti-Seize is an aluminum complex based anti-seize that meets NSF requirements for use in federally inspected food plants.

Para obtener información adicional en Español, visite www.crcindustries.com.

CRC® Food Grade Anti-Seize is designed for use on:

- Bottling and packaging machinery
- Pump gears, motors, chain drives
- Conveyor and oven bearings
- Nuts, bolts, screws

DIRECTIONS: Please read entire label before using this product.

1. Clean scale and old compound from thread surfaces. **NOTE: When grinding or wire brushing, use a dust mask.**
2. Coat mating surfaces and assemble.
3. Do not use thinner.
4. To avoid contamination, keep container closed when not in use.
5. Not for use on oxygen systems.

- Protects from -65°F (-54°C) to 1800°F (982°C).
- Prevents seizing of threaded surfaces.
- Aids assembly and disassembly.
- Non-staining and odorless

NSF H1

Precautionary statement: Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. Observe good industrial hygiene practices. Store away from incompatible materials. Do not store container above 100 °F/ 38 °C. Dispose of contents/container in accordance with local/regional/national/international regulations.
First aid: Wash hands after handling.

Contains white mineral oil 8042-47-5, calcium carbonate 471-34-1, polyisobutylene 9003-27-4, talc 14807-96-6, amorphous fumed silica 112945-52-5, amorphous silica 7631-86-9, and titanium dioxide 13463-67-7.
