

CRC Bee Blast® with Residual Wasp & Hornet Killer**Kills Wasps, Hornets, Yellow Jackets, & Bees**

- Electrically non-conducting; dielectric breakdown voltage of 47,300 volts
- Kills with residual action as wasps & hornets return to nest

FIRST AID

If swallowed: Immediately call a poison center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **In case of Medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-877-315-9819.**

NOTE TO PHYSICIAN: Contains petroleum distillate – vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS – CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

USER SAFETY RECOMMENDATIONS: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters. See directions for use for additional precautions and requirements. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

Read entire label before using this product. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for outdoor use only. Do not allow adults, children, or pets to enter the area until sprays have dried. Remove pets, birds, and cover fish aquariums before spraying. Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. Do not make application during rain. Do not water the treated area to the point of runoff. Avoid spraying vegetation directly. Do not apply when food is present. Remove or cover exposed food and drinking water before application. All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses: Treatment to soil around structures; Applications to building foundations; up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structure surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. May cause staining (darkening) of asphalt surfaces and shingles. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest. To kill wasps, hornets, yellow jackets and bees under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 - 2 seconds or until surfaces are moist.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Do not store near heat or open flame. Store in cool dry area away from children. **Pesticide Disposal and Container Handling:** Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Wasp & Hornet Killer

**Up to 20 Foot Jet Blast
Kills on Contact
Prevents Nesting**

**ACTIVE INGREDIENTS:**

Tetramethrin	0.10%
Permethrin*	0.25%
Piperonyl Butoxide**	0.50%

OTHER INGREDIENTS

..... 99.15%

TOTAL INGREDIENTS

..... 100.00%

- Contains petroleum distillates
* *Cis/trans* ratio: min. 35% (+/-) *cis* and max. 65% (+/-) *trans*.
** (butylcarbityl)(6-propylpiperonyl) ether and related compounds.

24 HOUR EMERGENCY INFORMATION - CALL CHEMTREC 1-800-424-9300

1 HAZARDOUS INGREDIENT INFORMATION

CAS #	ACGIH	OSHA	OTHER	%	SARA 313
Petroleum Distillate	64742,478	NE	NE	NE	NO
Terminelin	7696120	NE	NE	.10	YES
Permethrin	52645,531	NE	NE	.25	YES
Piperonyl butoxide	5103-6	NE	NE	.50	YES
Carbon Dioxide	124389	5000 ppm	5000 ppm	NE	NO

2 CHEMICAL AND PHYSICAL PROPERTIES

(without propellant)

Appearance and Odor: Clear liquid, petroleum odor
Specific Gravity: 0.791
Boiling Point: 380° F
Freezing Point: ND
Vapor Pressure: ND
Evaporation Rate: slow
pH: NA
VOC Content: 33.8%
Vapor Density: >air
Solubility: Negligible in water.
g/l: 267.4 lbs/gal: 2.23

3 FIRE AND EXPLOSION DATA

Flashpoint: 178° F Method: TCC UEL: 5.0
Flammable Limits: estimated UEL: 0.7
Extinguishing Media: CO₂, dry chemical, or foam.
Unusual Hazards: Aerosol containers may explode when heated above 120° F.

4 REACTIVITY AND STABILITY

Stability: Stable
Hazardous Decomposition Products: CO₂ and carbon monoxide (fire)
Materials to Avoid: Strong oxidizing agents.

5 PROTECTION INFORMATION

Ventilation: Adequate ventilation to prevent the accumulation of vapors.
Respiratory: Positive pressure self contained breathing apparatus if accumulation of vapors is suspected.
Gloves: Nitrile or neoprene.
Eye and Face: Safety glasses.
Other Protective Equipment: Not normally required with aerosol product usage.

6 HAZARD IDENTIFICATION

Primary Entry Routes: Inhalation, Skin.
Signs and Symptoms of Exposure

Acute Overexposure:

May cause burning/irritation of eyes. Skin contact will cause dryness. Aspiration hazard if swallowed. Vapors may cause headaches, nausea, dizziness.

Chronic Overexposure: Prolonged overexposure to skin may cause development of dermatitis.

Medical Conditions Generally Aggravated by Exposure: NA.

7 EMERGENCY AND FIRST AID MEASURES

(if symptoms persist, call a physician)

Inhalation: Remove to fresh air. Apply artificial respiration if necessary.
Eyes: Flush with large amounts of water for 15 minutes.
Skin: Remove contaminated clothing. Wash exposed area with soap and water.
Ingestion: DO NOT induce vomiting. Call a physician.

8 ACCIDENTAL RELEASE MEASURES

Precautions to be taken in Handling and Storage: Store in a cool, dry area.

Steps to be taken in case material is released or spilled: Ventilate area, absorb with inert material and place in a closed container.

Waste Disposal: All used and unused product should be disposed of in conformance with local, state and federal regulations.

9 SPECIAL PRECAUTIONS AND USE DIRECTIONS

Aerosols may explode if contents are heated above 120°F. Vapors are heavier than air and will tend to collect in low areas. Avoid contact with skin and eyes. Do not use on energized equipment. Use product in accordance with label and instructions.

10 NFPA HAZARD RATINGS

Health: 2 Flammability: 2 Reactivity: 0 PPE: B
