TRANS-X
"Mechanics In A Can"

PREMIUM ATF

TRANS-X® Premium ATF With Synthetic Conditioners is a premium ATF formulated to provide superior heat

resistance, advanced anti-rust protection and reduction of acid build-up. Anti-wear properties combine with anti-oxidants to extend transmission life, and improve smooth operations. It tightens sludge and keeps parts cleaner, while maintaining long term peak efficiency of the ATF. Seals are protected and revitalized, inhibiting seepage and leaks in advance. This product is fortified with a synthetic additive. It is designed for use as a replacement ATF or as a top-off in passenger cars, vans and trucks. TRANS-X® ATF may be used in any power steering unit where a DEXRON III® or MERCON® fluid is prescribed. Do not overfill the transmission. Please adhere to applications and capacities cited in vehicle owner's manual.

Read entire label before using this product.

Not recommended for use as a replacement ATF in Chrysler® products, or where Ford® TYPE-F is required.

WARNING: Contains: Petroleum Distillates 64741-89-5, 64741-88-4 and Organic Additives. This product contains chemicals known to the State of California to cause cancer, birth defects and other reproductive harm.

FIRST AID: In case of eye contact, flush with large amounts of water for at least 15 minutes. If ingested, do not induce vomiting. Wash skin with soap and water.

KEEP AWAY FROM CHILDREN

MANTÉNGASE LEJOS DEL ALCANCE DE LOS NIÑOS
Disposal: All used and unused product should be disposed of in conformance with local, state and federal regulations. Collect and recycle all fluids whenever possible. Don't pollute. Conserve resources. Return used oil to collection centers.
