

Anti-Freeze Booster™

**Heavy Truck
Cooling System
Treatment**

**Recharges additives
in worn-out anti-freeze**

**Cleans cooling system
and protects against
cavitation and pitting**

Maximizes coolant flow

Extends anti-freeze life

OO-TIS

Part No. 405716

Net Contents: 16 fl. oz. (473 mL)

CAUTION: READ WARNINGS ON BACK PANEL.

SIL00® Anti-Freeze Booster™

SIL00 Anti-Freeze Booster™ is an SCA (supplemental coolant additive) which is added to new or existing anti-freeze to refresh the additives protecting your cooling system from corrosion, hard-water deposits, solder bloom, cavitation, rust, scale and silicate drop-out.

- Provides protective coating to metal surfaces
- Prevents rust, scale and pitting
- Improves engine cooling, provides superior heat transfer capabilities
- Adds corrosion inhibitors
- Extends the life of anti-freeze/coolant
- Lubricates water pump seals
- Stabilizes pH balance

DIRECTIONS: Read entire label before using this product.

Shake well before using. Make sure engine is off and cooling system is completely cool. Pour entire contents directly into radiator. Excess anti-freeze will move into overflow tank. Refer to manufacturer's specifications for proper ratios on anti-freeze and water for your engine. One pint treats 5 gallons of anti-freeze for initial treatment. One pint treats 20 gallons for maintenance. Use three times per year or every 40,000 miles. Where excessive rust is evident, drain & flush system with CRC Radiator Flush 05337, save old anti-freeze solution, filter and reuse.

WARNING: Contains Water 7732-18-5 and Monoethanolamine 141-43-5. May cause eye and skin irritation. Avoid contact with skin and eyes.

FIRST AID: In case of eye and skin contact, flush with water for 15 minutes. If swallowed, do not induce vomiting. For severe overexposure, call a physician immediately. For additional information, consult the Material Safety Data Sheet for this product.

All used and unused product must be disposed of in accordance with local, state, and federal regulations.
