CARPET STAIN REMOVER

#MK5032

MARYKATE® CARPET STAIN REMOVER easily cleans away water and oil based stains and ground-in dirt from boat and RV carpeting. It is safe for use on wool, nylon, and other types of synthetic carpeting both untreated and those with stain resistant treatments. This product is non-flammable, non-acidic, and non-alkaline.

DIRECTIONS: *Read entire label before using this product.* For encrusted soil, scrape off as much as possible with the handle of a spotting brush or other rigid, blunt instrument and process as follows: Spray entire spotted area. Let stand for 1 or 2 minutes. With a clean, white cloth start working the spot from the outside edges in towards the center. Do not rub, as it will tend to spread the spot.

Keep exposing new areas of the cloth as you work so that stain is not re-deposited. Work the spot until no more is transferred to the cloth. When the spot has been reduced to a small area, dab at the area with the cloth until the spot is removed; it may be necessary to repeat the spot as you work. Work the spot out of the carpet. Do not push it down into the pile as it will reappear.

WARNINGS: Contains Water 7732-18-5, Sodium Lauryl Sulfate 151-21-3, Ethylenediaminetetraacetate, Tetrasodium Salt 64-02-08, Decyl Alcohol Ethoxylate 26183-52-8, Enzymes 9014-01-1.

FIRST AID: In case of eye or skin contact, flush with water for 15 minutes, and contact medical assistance. If swallowed, drink no more than 2 glasses of water and induce vomiting and seek medical care immediately. If too much is breathed, remove to fresh air. For severe overexposure, call a physician immediately. **CONTAINS NO PHOSPHATES.**

KEEP AWAY FROM CHILDREN

For additional information, consult the Material Safety Data Sheet for this product. **DISPOSAL:** All used and unused product should be disposed of in accordance with federal, state and local regulations. **DO NOT** dump in sewers, floor drains, on the ground or into any body of water.
