

CRC® Food Grade Anti-Seize is an aluminum complex based anti-seize that meets NSF requirements for use in federally inspected food plants.

- Protects from -65°F (-54°C) to 1800°F (982°C).
- Prevents seizing of threaded surfaces.
- Aids assembly and disassembly.
- Non-staining and odorless

# NSF H1

# Food Grade Anti-Seize & Lubricating Compound

**Resists Acid, Chemical Corrosion & Oxidation**  
**Protects to 1800°F (982°C)**  
**Conforms to MIL-PRF-907E**

No. SL35906  
 Net Wt. 1 lb. (454 g)

Read warnings on back panel.

Nonfood Compounds Program Listed  
 Category Code: H1 Reg.# 131549

CRC® Food Grade Anti-Seize is designed for use on:

- Bottling and packaging machinery
- Pump gears, motors, chain drives
- Conveyor and oven bearings
- Nuts, bolts, screws

**DIRECTIONS:** Please read entire label before using this product.

1. Clean scale and old compound from thread surfaces. *NOTE: When grinding or wire brushing, use a dust mask.*
2. Coat mating surfaces and assemble.
3. Do not use thinner.
4. To avoid contamination, keep container closed when not in use.
5. Not for use on oxygen systems.

**KEEP AWAY FROM ALL CHILDREN**

**WARNING:** Contains White Mineral Oil 8042-47-5, AL Complex Soap 82980-54-9, Polybutene 9003-29-6, Calcium Carbonate 471-34-1, Polyalphaolefin 68037-01-4 Talc 14807-96-6, Zinc Oxide 1314-13-2. Frequent or prolonged contact may cause irritation. Avoid contact with skin and eyes. Do not take internally.

**FIRST AID:** In case of contact, flush affected area thoroughly with soap and water. If swallowed, DO NOT induce vomiting. Seek medical attention for all overexposures. For Industrial Use Only.

**DISPOSAL:** All used and unused product should be disposed of in conformance with local, state and federal regulations.
